MEDICATION POLICY

Rationale:
• Teachers and schools are often asked by parents to administer medication for their children while at school. It is important that such requests are managed in a manner that is appropriate, ensures the safety of students, and fulfils the duty of care of staff.

Aims:
• To ensure the medications are administered appropriately to students in our care.

Implementation:
• Children who are unwell should not attend school.
• The Principal or delegate has agreed to be the staff member responsible for administering prescribed medications to children.
• Non-prescribed oral medications (eg: head-ache tablets) will not be administered by school staff.
• All parent requests to be forwarded to the Principal or delegate to administer prescribed medications to their child must be in writing on the form provided and must be supported by specific written instruction from the medical practitioner or pharmacist’s including the name of the student, dosage and time to be administered (original medications bottle or container should provide this information).
• All verbal requests for children to be administered prescribed medications whilst at school must be directed to the Principal or delegate, who in turn, will seek a meeting or discussion with parents to confirm details of the request and to outline school staff responsibilities.
• Requests for prescribed medications to be administered by the school ‘as needed’ will cause the Principal or delegate to seek further written clarification from the parents.
• All student medications must be in the original containers, must be labelled, must have the quantity of tablets confirmed and documented, and must be stored in either the locked first aid cabinet or office refrigerator, whichever is most appropriate.
• Consistent with our Asthma policy, students who provide the Principal or delegate with written parent permission may carry an asthma inhaler with them.
• Classroom teachers will be informed by the Principal or delegate of prescribed medications for students in their charge, and classroom teachers will release students at prescribed times so that they may visit the school office and receive their medications.
• All completed Medication Request Forms and details relating to students, their prescribed medication, dosage quantities and times of administering will be kept and recorded in a confidential official loose-leaf medications register located in the school office/first aid room by the Principal or delegate.
• Students involved in school camps or excursions will be discreetly administered prescribed medications by the ‘Teacher in Charge’ in a manner consistent with the above procedures, with all details recorded on loose-leaf pages from the official medications register. Completed pages will be returned to the official medications register on return of the excursion to school.
• Parents/carers of students that may require injections are required to meet with the principal to discuss the matter.

Evaluation:
• This policy will be reviewed as part of the School Renewal Process.

This policy was last ratified by the School Leadership Team in March 2014

DATE: __________________________

PARENT’s NAME: __________________________

ADDRESS: __________________________

TELEPHONE: __________________________
(Business Hours)

Dear Principal,

I request that my child ________________________ be administered the following medication whilst at school, as prescribed by the child’s medical practitioner.

NAME of MEDICATION: __________________________

DOSAGE (AMOUNT): __________________________

TIME/S of MEDICATION: __________________________

I have sent the medication in the original container displaying the instructions provided by the pharmacist.

Yours sincerely
